THE 2017 AIR ZOO SCIENCE INNOVATION HALL OF FAME AWARDS

The Air Zoo in Portage, MI is a world-class, Smithsonian-affiliated aerospace & science museum with over 100 rare and unique aircraft & spacecraft, inspiring interactive exhibits, and cutting-edge, science-based educational programs and experiences for people of all ages. The Science Innovation Hall of Fame (SIHOF) Awards are focused on recognizing and further encouraging Southwest Michigan high school students and K-12 level educators who have innovated and excelled within, or shown exceptional support of, education in the fields of Science, Technology, Engineering, Art, and Mathematics (STEAM). Each spring, the Air Zoo bestows the Science Innovation Hall of Fame Awards at a highly publicized, red carpet gala & dinner that draws notable Michigan luminaries from all corners of industry, education, government, and the arts. **This year's event will take place on May 13th, 2017. Award applications are due by March 24th, 2017.**

AWARD DESCRIPTIONS

STUDENT EXCELLENCE AWARD - \$500 FINANCIAL AWARD

The Student Excellence Award honors high school students who excel in the studies of science while also seeking to expand their knowledge and leadership skills outside of the classroom.

STUDENT ART & SCIENCE AWARD - \$500 FINANCIAL AWARD

The Student Art & Science Award recognizes a high school student who exemplifies the special harmony between arts and sciences.

EDUCATOR EXCELLENCE AWARD - \$750 FINANCIAL AWARD

The Educator Excellence Award recognizes educators who take a unique or innovative approach towards the teaching of STEAM, and foster deep and meaningful student learning and achievement.

The Air Zoo would like to thank the Science Innovation Hall of Fame Awards presenting sponsor, Western Michigan University.

2017 EDUCATOR EXCELLENCE AWARD CRITERIA

Science Educators: Share your best, and enhance your classroom! The Air Zoo seeks to reward examples of great Science, Technology, Engineering, Art, and Mathematics (STEAM) education at the K-12 levels in Southwest Michigan. If you are (or would like to nominate) a K-12 educator (or team of educators) who demonstrates an extraordinary passion for STEAM education, and strives to propel and inspire students to new heights in these important disciplines, we want to know about it!

EDUCATOR EXCELLENCE AWARD APPLICANTS MUST BE:

- *Educators, or teams of educators, in grades K-12, teaching in one of the following Michigan counties: Allegan, Barry, Berrien, Branch, Calhoun, Cass, Eaton, Kalamazoo, Kent, Ottawa, St. Joseph, or Van Buren.*
- *Actively implementing an innovative approach to Science, Technology, Engineering, Art, or Mathematics (STEM/STEAM) integrated lessons, units, or projects.*
- *Addressing science or technology in a way that actively engages students.*
- *Incorporating research-based practices (e.g. formative assessment, inquiry investigations) into the innovative lessons in ways that promote student learning.*
- *Able to attend the 2017 Air Zoo Science Inspiration Hall of Fame Awards Gala & Dinner on May 13th, 2017.*

APPLICATIONS ARE DUE BY MARCH 24TH, 2017

Submit your application in one of the following ways:

EDUCATOR APPLICANT ESSAY

Please share with us an example of an activity, project, unit, or investigation that most represents your best work in the Science, Technology, Engineering, Art, or Mathematics (STEAM) classroom by answering the following questions. *Please attempt to keep each response within the specified word limits. Feel free to submit separate supporting documentation.*

1. Please tell us about your activity, project, unit, or investigation. Detail how your approach engages students in STEAM practices. Include any examples of innovative learning tools and/or processes you've utilized to further students' understanding of STEM/STEAM related concepts. (500 words)
2. What was your inspiration? What passion or interest of your own, or on the part of your students, led you to develop this approach to teaching and related material/activities?
(200 words)
3. What evidence do you have that shows your approach to be remarkably effective? We are particularly interested in innovations that are effective for students who are traditionally under-represented in STEAM fields – such as females, students of color, students with disabilities, and students from lower socio-economic status.
(200 words)
